www.dna.com.sa

Core Services
2017 - 2019

Defect Manager

During my employment in of Credit Agricole Bank Poland, I was working with tier Management (weekly presentations in front of Bank Director's Board) and R&D on daily basis.

Management and control of all defects within the in-house development. Reporting on daily defect calls and meetings with Tier Management, Lead daily operations of Development, QA and Operational Teams, providing them with clear actions and helping my colleagues, to work efficiently - I was responsible for escalation of critical and average issues, that were blocking weekly increments.

Daily work with Jira, JQL query language, reporting tools, Confluence, MS Sharepoint, MS. Visio & MS. Project.

Product Owner at Internal Project - SharePoint Intranet re-development

Responsibilities:

Budgeting (Capex & Opex), taking care about invoices (b2b contractors in my team)

and keeping tight schedule on track (one month for development and whole data migration) also I was handling all change requests on my own. Gathering business requirements and objectives from all the Directors and Managers In the PMO departament & Analysis of the Survey from more than 70 employees (about new shape of mentioned intranet), end to end product ownership & backlog management.

UML & BPM Process design, A/B Tests, KPI Analysis.
